## Highlights

### High color rendering (CRI>80)

The color rendering index (CRI) is used to describe the effect of a light source on color appearance. Natural outdoor light has a CRI of 100 and is used as the standard of comparison for any other light source. The CRI of Philips LED light bulbs is always higher than 80, close to the sun's value, reflecting colors truly and naturally.

### Instant light when switched on

No need to wait: Philips LED light bulbs provide their full level of brightness immediately upon switching on.

### Lasts up to 15 years

With a lifetime of up to 15.000 hours, this Philips LED lamp will ensure your desired atmosphere for up to 15 years.\*

### Light all around

Through its innovative design, this Philips LED bulb avoids the appearance of a shadow, providing natural warm white light all around.

### Very low energy consumption

By replacing traditional light bulbs with a Philips LED alternative, you will gain immediate, significant energy savings while contributing to a sustainable planet.
